

## SOLUTION

Working with John, the company founder, I introduced the company to an accounting system that would immediately eradicate the need for duplication. The system could import accounting information (sales invoices, sales credit notes, bank payments, purchase orders etc) without the need to re-input the data, so we immediately saved the company £60,000 a year on staff overheads.

I then helped John evaluate the software options and together we selected the most appropriate DFFRXQWLQJ SDFNDJH IRU KLV EXVLQHVV b\$V WKH\ ZHUH WXUG LGHQWLILHG 4XLFN%RRNV DV WKH ULJKW VROXWLRQ b:H LQWH working closely with a **Magento** to build the system

## OUTCOME

:H KDG WKH QHZ V\ VWHP LQ SODFH bZLWKLQ VL[ ZHHNV LPPHGL their administrative burdens. By streamlining, systemising and synergising the financial data we've added £60,000 profit a year to John's business.

The system has increased their administrative capacity by 30%, giving them the scope to increase sales by the same amount without adding any additional business costs.

We offer a range of support levels, workshops and online courses tailored to suit the specific needs of your business.
